

A GUIDE FOR BECOMING Handpie Certified

FROZEN RETAIL

The bulk of our wholesale Handpies are sold in retail environments as individually packaged frozen comfort food solutions, and are shipped in 10-pack cases of a single flavour.

These cases are highly attractive and also double as merchandisers, keeping your handpies organized and visible with a tearaway panel for front access.

Our brightly coloured packaging differentiates the flavour varieties, and each package has a fully bilingual ingredient list, nutritional panel, and UPC for easy scanning at checkout!

HOT SERVICE RETAIL

We are proud to work with local businesses, breweries and taprooms wanting to provide hot handpie service in their establishments! Helping you to provide your customers with portable comfort food on the go is absolutely what we do. Get in touch with us with all of your questions about our Pies & Pints program!

Suggested equipment includes:

- Licensed kitchen space
- Storage freezer
- Commercial convection oven or Merrychef
- Heated pastry display cabinet to hold prepared handpies for up to 3 hours at 70-75°F.
- Optional Handpie Company branded logo bags for serving individual hot handpies, no cutlery required!

WHAT WE RECOMMEND for HOT HANDPIES

18-Inch Countertop Display Warmer
